

Quick Start Guide

FaceDepot-7BL

Version: 1.1

Date: December 2019

Overview

FP & RFID Reader (Optional)

Device Installation

Method 1: Installation on the wall

- ① Attach the mounting template sticker to the wall, and drill holes according to the mounting paper. Fix the back plate on the wall using wall mounting screws.
- ② Attach the device to the back plate.
- ③ Fasten the device to the back plate with a security screw.

Note: If you want to install FP & RFID reader, please insert the reader after step ①.

Method 2: Install on the barrier gate

Please route the wire through the bracket before installation.

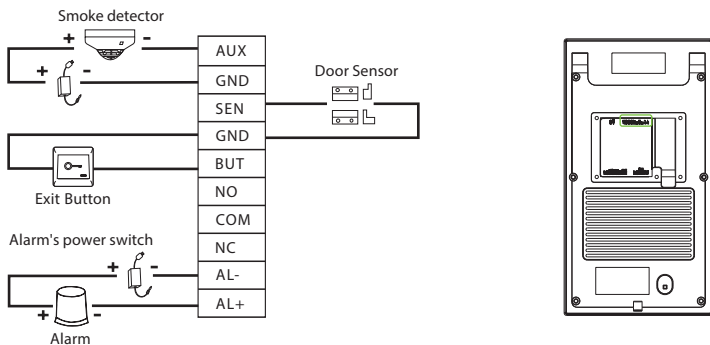

1. Drill a hole on the barrier gate.
2. Insert the bracket into the hole and fix it with a nut.
3. Adjust the angle of the device.

Standalone Installation

Note: On this document, we just guide you to connect some normal components, if you want more connection of SRB, external fingerprint reader and so on, please check user manual document.

Door Sensor, Exit Button & Alarm Connection

Lock Relay Connection

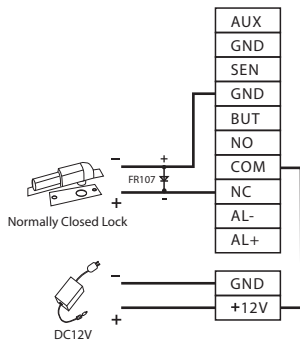

The system supports Normally Opened Lock and Normally Closed Lock.

The NO LOCK (normally opened at power on) is connected with 'NO' and 'COM' terminals, and the NC LOCK (normally closed at power on) is connected with 'NC' and 'COM' terminals. Take NC Lock as an example below:

1) Device not sharing power with the lock

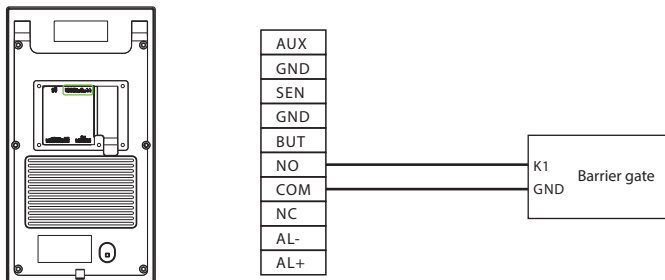

2) Device sharing power with the lock

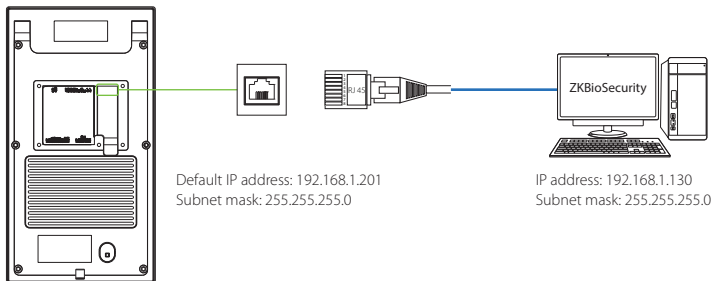

Wiegand Reader Connection

Barrier Connection

Ethernet Connection

Click [COMM.] > [Ethernet] > [IP Address], input the IP address and click [OK].

Note: In LAN, IP addresses of the server (PC) and the device must be in the same network segment when connecting to ZKBioSecurity software.

Power Connection

Recommended power supply

- 1) $12V \pm 10\%$, at least 3000mA.
- 2) To share the power with other devices, use a power supply with higher current ratings.

User Registration

When there is no super administrator set in the device, click on  to enter the menu. After setting the super administrator, the system will request for the administrator's verification before entering the menu. For the security purpose, it is recommended to register a super administrator at the first time you use the device.

Method1: Register on the device

Click on  > [User Mgt.] > [New User] to register a new user. Settings include entering user ID and name, registering a fingerprint, face, password, badge (optional) and user photo, setting user role and access control role.
