## Software Biosecurity Module Visitor

The screenshot shows the ZKTeco software interface. The top bar is green with the ZKTeco logo and various icons. The left sidebar contains a menu with options: Registration, Reservation, Basic Management (marked with a red circle 1), Device Debugging, Print Settings, Visitor Levels, Host Levels, Visited Department Levels, Entry Place (marked with a red circle 2), Visit Reason, and Custom Attributes. The main area displays a table with the following data:

	Place Name	IP Address	Area Name	Visitor Machine Type	Photo Collection	Document Collection	IP Camera Name	Operations
<input type="checkbox"/>	DEMO	187.160.12.182	DEMO	Ordinary Computer	USB Camera	USB Camera		<a href="#">Edit</a> <a href="#">Delete</a>

To add the PDS3000 scanner we must enter:

1. Basic Management > Place of Entry

Dialog box titled "Edit" with the following fields and options:

- Place Name\*: DEMO
- IP Address\*: 187 . 160 . 12 . 182 (Test Connection button)
- Physical information\*: QkZFQkZCRkYwMDA4ME
- Photo Collection: USB Camera
- Document Collection: Portable HD Doc Scanner
- Default permissions: USB Camera
- Area Name\*:
  - High-Speed Portable HD Doc Scanner
  - Scanner
  - Dual Camera High-Speed Portable HD Doc Scanner

Buttons: OK, Cancel

1. We will select the entry point where the scanner is located
2. To capture photographs and documents we must select High Speed HD Scanner with Double Camera
