

## MODEL OWC6COPOUT100WH

### Description

CAT6 UTP manufactured with 100% copper

Performance: CAT6 cable fully meets electrical and mechanical requirements. It is compatible with all CAT6 UTP systems and complies with ISO/IEC 11801 Ed2 and EIA/TIA568B.

The internal cross-shaped structure makes the cable structure and performance more stable. The cross-insulation structure effectively prevents crosstalk between individual pairs of the cable.

---

### Characteristics

- Outdoor installations thanks to its weather-resistant LDPE cover.
- Structured cabling implementations in commercial and residential buildings.
- Voice and data networks in offices, data centers and industrial environments.
- Video surveillance systems and IP video transmission.
- Telecommunications and connectivity applications in campuses and business environments.

## Technical Specifications

Gauge	23 AWG
Material	Copper
Diameter	0.56mm
Material	HD-PE
Cross	PE Cross
Thickness	0.18mm
Diameter	0.95±0.03mm
Material	PVC
Thickness	0.56mm
Diameter	6.0±0.2mm
Color	WHITE-BU003
Color	White
