

3-in-1 insulator

3-function insulator for electric fence

Designed to fit any corner post of an electric fence. Its construction is highly resistant to corrosion and the environment, ensuring durability. Its design allows for easy installation on the electric fence.

It can be used as:

1. Corner insulator.
2. Step insulator.
3. Tensioner

Technical Features:

- Made of Polypropylene and Polycarbonate.
- Protection against UV rays, water, humidity and dust.
- Made of virgin resin. Maximum tensile strength: 123 kg.
- Maximum mechanical resistance: 72 Kg.
- Maximum insulation: 19 KV.
