

## Technical Specifications:

# AV TT004 - Metal Cabinet

The AV TT004 is a heavy-duty metal enclosure specifically designed to house and protect alarm control panels, expansion modules, and power supplies. Its steel construction helps protect internal components from unauthorized tampering or mechanical damage, providing a safe and organized environment for professional wiring.

It is compatible with all DSC modules, as well as SECO LARM power supplies.

## Characteristics:

- **Functional Design:** Optimized space that allows for adequate ventilation and a clean distribution of devices and backup batteries.
- **Enhanced Security:** Security locking systems to restrict technical access to authorized personnel only.
- **Universal Compatibility:** Its perforation pattern and dimensions make it compatible with the most popular boards and transmitters on the market.

## Technical specifications:

- Dimensions: Height: 19 cm. Width: 23 cm. Depth: 9 cm.
- Designed for indoor use.
- Metallic color: Beige.
