AV GMX008 GS008 – Metal Cabinet for emergency keys.

Metal Cabinet for Emergency Keys (GMX-008)

This cabinet is a physical security solution designed to safeguard critical keys that should only be available in emergencies. It is an essential accessory for security and civil protection systems in businesses, condominiums, and industrial facilities.

Characteristics:

- **Specific Use:** Secure storage of emergency keys, ensuring they are protected but accessible when needed.
- **Robust Construction:** Made of high-strength metal to prevent unauthorized openings or vandalism.
- **Compact Design:** Its size is optimized so as not to obstruct hallways or entrances, but to be easily visible.
- **Color:** Finished in beige (standard on DSC security equipment) that blends discreetly into most environments.
- **Measures:** Height: 21 cm / Width: 15 cm / Depth: 10 cm
- **Color:** Beige
