Technical specifications ofAV GMX004 GS004 - Metal Cabinet for DSC SECO LARM Modules

Especificaciones Técnicas

The AV GMX004 is a heavy-duty metal enclosure specifically designed to house and protect DSC and SECO-LARM control panels, expansion modules, and power supplies. Manufactured from premium steel with a baked enamel finish, it ensures the physical integrity of electronic components against unauthorized tampering and environmental factors in indoor environments. Suitable for industrial, residential, and commercial installations.

Characteristics

- **Universal Compatibility:** Designed with pre-punched holes that align perfectly with DSC main boards (PCBs) (PowerSeries Neo, Pro and Power8 Series) and SECO-LARM modules.
- **Robust Construction:** Steel structure with anti-corrosive finish that prevents degradation of the material in engine room or cellar environments.
- **Physical Security:** Includes space for a standard key lock and holes for switches. tamper switch to alert about unauthorized openings.
- **Cable Management:** Multiple cable entry points (knockouts) on the top, bottom, and sides for a clean and professional organization of the data and power bus.

Technical Specifications

- **Dimensions:** Height: 19 cm. Width: 23 cm. Depth: 9 cm.
- **Designed for indoor use.**
- **Metallic color:** Beige.
