UniFi Access Card

High Security NFC Credential | Model: UA-Card

General Description

The UniFi Access Card (UA-Card) is the official smart card-format access credential for the UniFi Access ecosystem. It incorporates proprietary encryption and high-frequency NFC technology at 13.56 MHz. to ensure a safe passage, free from duplicates or unauthorized duplications.

Key Features

- Frequency and Security: Operates at 13.56 MHz with ISO/IEC 14443 Type A and MIFARE DESFire technology.
- Advanced Encryption: Integrates UniFi Access's proprietary security protocol to prevent cloning.
- Standard Format: Built under the ISO 7810 ID-1 standard (dimensions identical to a bank card).
- Simple Management: Quick enrollment and instant assignment to users from the UniFi Access application.

Technical Specifications

Dimensions	85.6 x 53.98 x 0.84mm (3.37 x 2.13 x 0.03")
Weight	5 g (0.18 oz)
Standard Format	ISO 7810 ID-1
NFC Frequency	13.56 MHz
NFC technology	ISO/IEC 14443 Type A, MIFARE DESFire
Security Protocol	UniFi Access Proprietary Security Protocol
Regulatory Compliance	NDAA Compliant
