SKU: 462051 | EAN-13: 0766623462051 | UPC: 766623462051

Ceiling TV Mount - Telescopic TV mount bracket with tilt for sloped and flat ceilings to save wall and floor space

Upgrade viewing perspectives when wall and floor space is limited or low-level installations are impractical. This Manhattan Ceiling TV Mount holds a 37" to 80" LCD, LED or plasma display up to 50 kg (110 lbs.). Its powder-coated, heavy-duty steel construction provides a secure and confident overhead installation.

Keep your guests and co-workers informed and entertained

Designed for both residential and business applications, this mount is ideal for conference rooms, lobbies, entrances, meeting spaces, classrooms, hospitality, digital signage, video conferencing, surveillance and more.

Viewable from anywhere in the room

The full-motion mount lets you rotate your display +/-30° around the pole without using tools and can be tilted from +5 to -25° toward your audience for optimum visibility. Such great options keep images, contrast and colors clear, sharp and defined with no glare. Plus, the overhead installation means there's less likelihood that someone or something will block the view.

Adjustable height

With a telescopic pole, the TV mount lets you suspend a display at your desired distance from the ceiling between 707 to 1577 mm (28 to 62 in.).

Suits flat and sloped ceilings

This Manhattan TV mount accommodates both ceiling types: You can adjust the ceiling plate +/- 60° to work with sloped and level (flat) surfaces.

Clean-looking, clutter-free cable management

Internal cable management keeps your cords concealed and organized to give a professional look to the installation.

Features:

- Supports one flat 37" to 80" TV up to 50 kg (110 lbs.)
- Optimized views with +5 to -25° tilt and +/-30° swivel
