SKU: 208444 | EAN-13: 0766623208444 | UPC: 766623208444

Wireless HDMI Display Adapter Dongle for Screen Sharing from Your HDMI Laptop or other Device - Great for Presentations

The Manhattan 1080p Wireless HDMI Display Adapter allows you to easily mirror the screen of your HDMI device on any HDMI-enabled TV, projector, or monitor - perfect for presentations, professional trainings, video streaming, and gaming, all without the hassle of cable clutter.

Quick and Simple Pairing, No Driver or Extra Technology Needed

Designed for ease of use, this adapter offers quick and simple pairing, requiring no Wi-Fi, Ethernet, or screen-sharing technologies such as AirPlay, Miracast, or Google Cast. Instead, it works with the HDMI receiver of Manhattan #208420 Wireless HDMI Presentation Kit, ensuring smooth, reliable connectivity.

Broad Compatibility Across HDMI Devices

Fully compatible with a wide range of HDMI-equipped laptops, tablets, and phones - including Apple® MacBook®, Chromebook™, Pixel™, Blu-ray player, PlayStation® (PS4/PS5), Xbox® (One/Series S/Series X), and more - this plug-and-play solution makes installation a breeze. Whether you're using Windows®, macOS®, Linux® or Chrome OS™, you'll enjoy Full HD resolution up to 1080p@60Hz for clear, crisp visuals.

Supports Multiple Users for Collaborative Presentations

Perfect for collaborative work environments, you can use up to six pieces of this transmitter on a single receiver, allowing multiple users to easily switch between devices during team presentations. Its compact and portable design fits easily in your bag, making it ideal for business meetings or travel, offering you the flexibility to present anytime, anywhere.

Reliable Wireless Range for Large Rooms

With a reliable wireless range of up to 30 meters (100 ft.), you can share media across larger rooms without any limitations.

Features:

- Wirelessly mirrors or extends the screen of your HDMI device to an HDMI TV, projector or monitor
- Quick and easy pairing, great for presentations, professional trainings, and video streaming without cable clutter
- Requires HDMI receiver from Manhattan #208420 or #154468 Wireless HDMI Presentation Kit; does not require Wi-Fi, Ethernet or screen-sharing technologies such as AirPlay, Miracast, Google Cast, WiDi, or Samsung® Smart View
- Compatible with HDMI-equipped laptops, PCs, and other devices including Apple® MacBook®, Chromebook™, gaming consoles, and DVD/Blu-ray players
- Plug-and-play installation; Windows®, macOS®, Linux®, and Chrome OS™ compatible
- Resolutions up to Full HD 1080p@60Hz (1920 × 1080)
- One receiver supports up to six transmitters, allowing multiple users to connect their laptops to the display and easily switch between devices during collaborative presentations
- Compact and portable design, easy to carry to business meetings, giving you the flexibility to set up and present anywhere, anytime
