UBIQUITI UNIFI PROTECT

AI Theta Audio

Model: UVC-AI-Theta-Audio

TECHNICAL SPECIFICATIONS

GENERAL DESCRIPTION

The UniFi Protect AI Theta Audio module is a compact, two-way audio accessory designed for the Ubiquiti AI Theta modular camera system. Equipped with an integrated microphone and speaker, it enables clear audio capture and real-time interactive communication in discreet or recessed ceiling/wall installations.

KEY FEATURES

- Full Two-Way Audio: Includes a high-fidelity speaker and microphone for voice interaction live.
- Discreet Embedded Mounting: Includes flush mount kit with ultra-braided profile for perfect aesthetic integration.
- Proprietary Theta Connection: Includes a 1-meter long textile connection cable with proprietary Theta connectors.
- Efficient Power Supply: Powered directly via USB Type C at 5V DC through the camera's main module.
- Regulatory Compliance: Full NDAA certification for high-security government and corporate projects.

TECHNICAL SPECIFICATIONS

Parameter	Detail / Value
Module Dimensions	ÿ61.5 x 39 mm (ÿ2.4 x 1.5")
Integrated Audio	Built-in speaker and microphone
Building Material	Aluminum alloy, polycarbonate
Mounting Materials	Polycarbonate (Recessed bracket included)
Weight	Audio Module: 65 g (2.3 oz) Flush Mount: 22 g (0.8 oz) Cable: 18 g (0.63 oz)
Feeding Method	USB Type C, 5V DC, 0.9A
Maximum Energy Consumption	4.5W
Cable Specifications	Length: 1m (3.3ft) | Diameter: 3.3mm (0.13") Cover Material: Woven fabric Connector Housing: PVC (28 x 13 x 7.5 mm) Connector Type: Proprietary Theta
