MCDI SECURITHOR Plugin – AJAX Systems Integration for SECURITHOR V2

Alarm Event Reception Module, MotionCam Photo-Verification and Bidirectional Control of Ajax Hubs

LICENSE DESCRIPTION

He**MCDI SECURITHOR Plugin – AJAX (SKU: STAJ | TVC Key: 72610)**It is a specialized software module for Alarm Receiving Centers (ARC) that directly links the brand's alarm panels and devices.**AJAX Systems**with the management software**SECURITHOR V2**It allows receiving detailed events and processing the photo-verification provided by the detectors.**MotionCam**and perform arming, disarming and relay activation commands directly from the operator stations.

MAIN FEATURES

• **MotionCam Photo-Verification:** Automatically displays sequences of frames captured by Ajax's MotionCam sensors when an alarm signal is triggered.

• **Direct Integration with Cloud Enterprise:** Native connection to the Ajax Systems Cloud via professional API/SDK without requiring complex physical receivers.

• **Two-Way Remote Control:**Sending direct commands for full arming, partial arming (Night Mode), disarming and alarm cancellation.

• **Output Control and Automation:** It allows you to operate smart relays and switches (WallSwitch, Relay, Socket) from the service ticket.

• **Account and Device Synchronization:** Quick import and mapping of zones, smoke, water and intrusion detectors linked to the Hub.

• **Notifications and Geolocation:** Receiving GPS coordinates in panic button events from the Ajax mobile app or from Button/ DoubleButton hand controls.

SPECIFICATIONS AND LICENSING REQUIREMENTS

Parameter	Specification / Requirement
Trade Name	SECURITHOR AJAX Plugin / AJAX Integration Module V2
Part Number (SKU) / TVC	STAJ/TVC Key: 72610 (MCD2550006)
Product Type	Digital Software License (Associated with the SECURITHOR key serial number)
Required Base Platform	SECURITHOR V2 (Core, Premium, Network) version 2.31 or higher (Recommended v2.5+)
Operating System	Windows 10 / 11 Pro 64-bit or Windows Server (2016 / 2019 / 2022 / 2025) 64-bit
Ajax compatibility	Ajax Hub, Hub Plus, Hub 2 (2G/4G), Hub 2 Plus, ReX/ReX 2 and MotionCam / MotionCam Outdoor detectors
Transmission Protocol	SIA DC-09 / Ajax Cloud Business API / HTTPS SSL/TLS Encryption
Operating Functions	Alarm reception, Photo verification, Arming/Disarming, Home automation activation, Geolocation, Panic
Discharge	Per Monitoring Server / Registered Workstation

INTEGRATION ARCHITECTURE SCHEME
