	Features & Functions
1	Exquisite turntable mechanism and self-locking function.
2	Bi-directional / uni-directional passing (adjustable).
3	Arm automatically drops when power off, manually lifts when power on.
4	Auto-locking within 5 seconds.
5	Prevents unauthorized access.
6	Output for counter.
7	Output for fire alarm emergency signal.
8	Input interfaces available for Left access (L), Right access (R), Emergency (EM) and GND.
9	Integrates with any access control system (e.g., RFID device, push button, fingerprint reader, biometric device).

Technical Data

Item \ Model	WJAT215
Dimensions (W*D*H mm)	1200*280*990mm
Cabinet Material	304 Stainless Steel
Net Weight	34 kg
Arm Length (outside cabinet)	495mm
Maximum Arm Load Capacity	80kg
Arm Driving Force	3kg
Power Supply Input Voltage	110VAC+-10%, 50/60HZ
Controller Input Voltage	12V cc, 6A
Power Consumption	36W
Input Interface	Dry contact with pulse between 200ms and 500ms
Transit Speed	25 ~ 35 persons / min
MTBF	6,000,000 cycles
Duty Cycle	100%
Operating Temperature	-25℃ ~ +55℃
Operating Environment	Indoor / Outdoor with shelter
Cabinet Protection Rating	IP40
Relative Humidity	≤95%, non-condensing
