TECHNICAL DATA SHEET

SECURITHOR MCB | MISSION CONTROL BOARD

Mobile staff tracking and dispatch license · 5 users

MCB extends SECURITHOR with tools to locate, coordinate and dispatch mobile personnel. Operators can create missions, organize itineraries and receive intervention reports through the MCB Android application.

PRODUCT IDENTIFICATION

Manufacturer	MCDI Security Products Inc.
Product	SECURITHOR MCB — Mission Control Board
Model / license	MCB5 · 5-user license
TVC product code	MCD2550009
Solution category	Mobile workforce tracking and dispatch software
Related platform	SECURITHOR + MCB mobile app (Android)

DOCUMENTED FEATURES

Tracking and availability	View mobile staff availability and position on maps.
Missions and dispatch	Assign field tasks, including responses associated with alarm events.
Itineraries and tours	Prepare scheduled or on-demand visits, guard tours and service routes.
Proof of presence	Geofencing and checkpoint validation using QR codes or NFC tags, where implemented.
Evidence and reports	Intervention reports with pictures, videos and supporting documentation.
Central station interaction	Dispatch instructions and review field reports from a SECURITHOR session.

TYPICAL APPLICATIONS

Security guards and patrols; alarm installers; maintenance teams; field service visits; routes and deliveries.

REQUIREMENTS AND LIMITATIONS

- TVC lists compatibility starting with SECURITHOR 2.4.1; newer features may require an updated version.
- The MCB mobile app documented by MCDI runs on Android devices; verify current device requirements with the manufacturer.
- The advertised MCB5 item covers 5 users; confirm precise activation terms and any additional services before purchase.
- MCB Go! is a separate offering that can operate without SECURITHOR; it should not be confused with this MCB5 license.
- TVC states that processed digital licenses are non-returnable.
