

ion detector

The motion detector is shaped to sit on a shelf, stick to a wall, or sit in a corner to protect what matters to you. Detect theft with PIR sensor; the detection range is up to 12 m (39.4 ft) and the field of view is 90°. You will receive an instant alert message on the Imou app when someone breaks in.

Specifications

Sensor

Detection: Passive Infrared Detection Range: 12m (39.4ft)/90° Alarm Indicator: LED notification indicator Sensitivity: Two levels (jumper switch)

Pet Immunity: ≤18kg (39.7lbs)

Wireless

Wireless frequencies: 433MHz

Transmission power: 10dBm

Transmission distance: 200m (656.2ft) open area

general

Handling: unit protection and exterior wall protection

Power: 1 CR123A battery, 3 years battery life

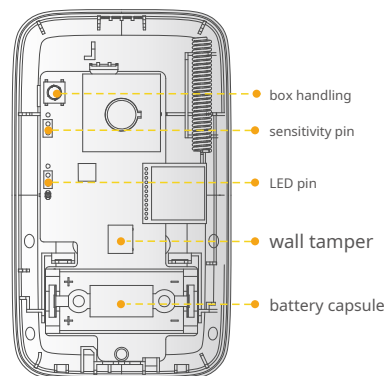

Working environment: -10°C~+55°C (14°F~131°F), less than 95% RH Light

resistance: 6500 lux

Mounting requirement: wall mount, installation height 2.2~2.5m (7.2~8.2ft) Dimensions: 104 × 62 × 46mm (4.1 × 2.4 × 1.8 inches)

Weight: 0.1kg (0.22lbs)

Certification: CE

What is in the box

- 1x motion detector
- 1 pack of screws.
- 1 CR123A battery
- 1x QSG
